

PART THREE:

A FAMILY TREE

## Notes to the Family Tree

The tables which follow record the descendants of the sixteen children of Hugh and Tim Brosnahan who had families in New Zealand. Children who died or remained in Ireland are not included. The descendants are dealt with in their respective order in the family and each has been given a code number based on their original line of descent (H for Hugh, T for Tim) and their place in the family. Thus the eldest child of Hugh and Deborah, Patrick Brosnahan, is H1. His eldest child is H1.1 (Deborah Brosnahan, who married Daniel Foley) and her eldest child is H1.1.1 (Mary Foley, who married Barry Brosnahan). The system is capable of extension indefinitely and will I hope prove relatively easy to follow. It seems to be the simplest way to present what is a huge and complicated family tree.

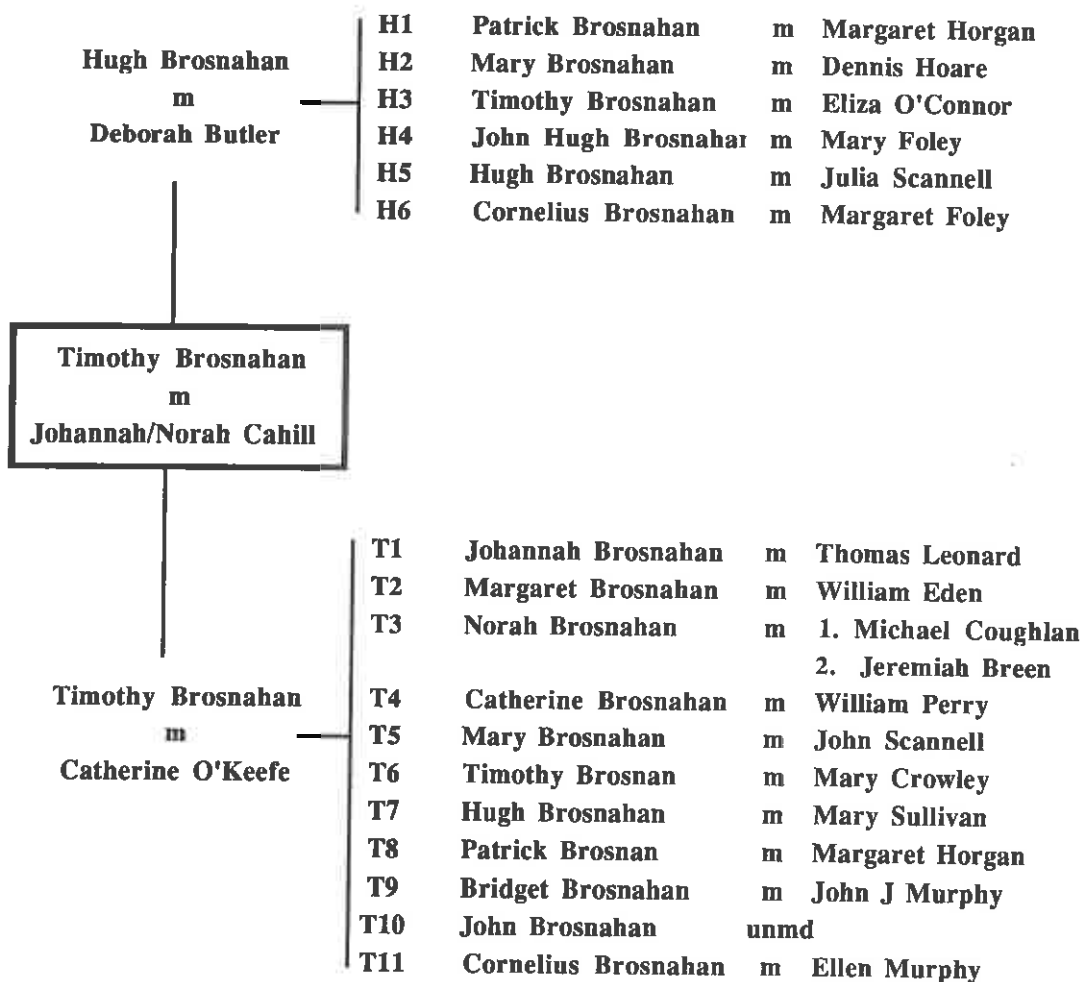

The following tables are no doubt riddled with errors. I would ask any critics to consider the scale of the task and the difficulties in contacting the far flung branches of all the families, let alone verifying every detail. Some of the family orders will be wrong, many of the names will be misspelt or incorrect altogether. I have probably left some people out and included some people who don't actually exist. I drew on the memories and contacts of a vast number of informants, who did their best to give me the correct details. I thank everybody who replied to my visits, phone calls and letters for their help. Much of the work was done in 1988 and there will have been many marriages and births since then, a family tree of this size can never be completely up to date.

I was not able to make contact with some families, particularly for the Perry branch of the family, while the Margaret Eden descendants are missing completely. For the rest I think that there is a reasonably comprehensive coverage of the descendants, who number over 2000. The index at the back lists every descendant with their code number, those who have two lines of Brosnahan ancestry are listed with both numbers. Spouses are not listed in the index and women appear under their maiden names only. The original generation of each family is listed in birth order and with name spellings for the most part taken from their baptismal records. This will account for the unfamiliar spelling or form of name that some are given.

As this is a record of families and not a "blood-line" I have obviously included step-children and adopted children. On the same basis I have not noted illegitimate children who were not brought up in the family, of which there were a few. Finally there are some blank pages left at the back of the book for additions, corrections or whatever. I would also be happy to receive any corrections to add to a master copy of the book which will eventually be deposited in the Timaru Museum.

**A  
FAMILY TREE  
CONCERNING  
THE DESCENDANTS  
OF  
HUGH & TIMOTHY  
BROSNAHAN  
OF  
KERRYTOWN,  
NEW ZEALAND**

|   | H2.9 | Dennis Joseph Hoare         | died young                 |

\* This Mary Brosnahan was a daughter of John Brosnahan and Hannah O'Driscoll.

John came to NZ on the "Echunga" with Patrick Brosnahan (H1) in 1862.

\*\* This James Brosnahan was a son of Michael and Margaret Brosnahan.

They also brought their family to S Canterbury in the 1870s.

Many of Michael's descendants are today known as "Brosnan".

\* This was Joseph Goulding's second marriage.  
His first wife was Mary's cousin Margaret Brosnahan.  
She was the daughter of Tim Brosnahan (H3), Mary Hoare's brother.  
The children of this marriage are therefore included among his descendants.  
Mary became their beloved step-mother.

End of H2 Mary Brosnahan/Dennis Hoare line.

## T6 Timothy Brosnan/Mary Crowley descendants

\*This is an unusual family to detail.

Norah died in 1929 leaving three children with one predeceasing her.

Matthew then married her niece Julia Lawler and had a further six children.

These are all listed here with the numbering adjusted to show their mother.
